

APPLICATION FOR PERMIT
TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of filing in State Engineer's Office..... JAN 3 1984

Returned to applicant for correction.....

Corrected application filed.....

Map filed..... JAN 3 1984 under 47555

The applicant..... Phillips Petroleum Company

P.O. Box 6256....., of Reno, Nevada.....
Street and No. or P.O. Box No. City or Town

Nevada 89513....., hereby makeS application for permission to appropriate the public
State and Zip Code No.

waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorpora-
tion; if a copartnership or association, give names of members.) June 13, 1917 - Delaware.

1. The source of the proposed appropriation is..... Underground.....
Name of stream, lake, spring, underground or other source

2. The amount of water applied for is..... five (5)..... second-feet
One second-foot equals 448.83 gals. per min.

(a) If stored in reservoir give number of acre-feet.....

3. The water to be used for..... industrial and domestic use.....
Irrigation, power, mining, manufacturing, domestic, or other use. Must limit to one use.

4. If use is for:

(a) Irrigation, state number of acres to be irrigated.....

(b) Stockwater, state number and kinds of animals to be watered.....

(c) Other use (describe fully under "No. 12. Remarks")..... industrial and domestic.....

(d) Power:

(1) Horsepower developed.....

(2) Point of return of water to stream.....

5. The water is to be diverted from its source at the following point..... SE¼, SE¼, Section 21, T31N - R33E.....
Describe as being within a 40-acre subdivision of public
M.D.B. & M., Pershing County, Nevada. The east quarter corner of section 21, survey, and by course and distance to a section corner. If on unsurveyed land, it should be so stated.
T31N - R33E is 1537.74 feet on a bearing of N15°53' 45" E from the proposed well.

6. Place of use..... Section 21, T31N - R33E, M.D.B. & M.....
Describe by legal subdivision. If on unsurveyed land, it should be so stated.

7. Use will begin about..... January 1st..... and end about..... December 31st....., of each year.
Month and Day Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.)..... Drill a well of 8-inch diameter or larger
State manner in which water is to be diverted, i.e. diversion structure, ditches and
to a depth of 8000 feet or less. Water and steam from the well would be piped
flumes, drilled well with pump and motor, etc. to a plant.

9. Estimated cost of works..... In excess of \$500,000

10. Estimated time required to construct works..... One year
If well completed, describe works.
.....
11. Estimated time required to complete the application of water to beneficial use..... Seven years
12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.
Well to develop geothermal resources. Water would be reinjected after
extraction of the heat.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: This permit is issued subject to existing rights. It is understood that the amount of geothermal fluid herein granted is only a temporary allowance and that the final right obtained under this permit will be dependent upon the amount actually placed to beneficial use. It is also understood that this right must allow for a reasonable decrease of fluid pressure and heat. The well shall be equipped and maintained to prevent any waste of the geothermal fluid. Accurate measurements must be kept of discharge of the production and the amount of fluid injected into the injection well to determine the total amount of fluid consumed for a beneficial use.

The production and injection well is to be cemented from the producing levels to the surface to protect fresh water zones. This permit is issued subject to the condition that only geothermal fluids are to be diverted and used beneficially for heating purposes and fresh, cold water aquifers are not to be diverted. The used geothermal fluids are to be returned to the source via the injection well. The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies. A detailed log on the injection well and/or other analyses of the system used for returning the used geothermal to the source must be submitted together with the Proof of Completion.

(CONTINUED ON PAGE TWO)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 5.0 cubic feet per second

- Work must be prosecuted with reasonable diligence and be completed on or before..... October 9, 1986
- Proof of completion of work shall be filed before..... November 9, 1986
- Application of water to beneficial use shall be made on or before..... October 9, 1991
- Proof of the application of water to beneficial use shall be filed on or before..... November 9, 1991
- Map in support of proof of beneficial use shall be filed on or before.....

Completion of work filed.....

Proof of beneficial use filed.....

Cultural map filed.....

Certificate No..... Issued.....

IN TESTIMONY WHEREOF, I, PETER G. MORROS
State Engineer of Nevada, have hereunto set my hand and the seal of
my office, this 9th day of October,
A.D. 1984

State Engineer

"Page Two"

Permit terms continued

An annual report for this well must be filed under this permit describing the amount of geothermal fluid consumed to a beneficial use for the calendar year. This report must also detail the amount of fluid produced and injected.

The total withdrawal of the geothermal fluid shall be limited to 3620 acre-feet per year but the total consumptive use of the geothermal fluid is limited to 724 acre-feet per year.

This Permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal, and local agencies.
